

Joint statement following a meeting between IARU and EURAO to discuss areas of common interest

A meeting was held on 2nd December between the President of IARU Region 1 and the President of EURAO. Also present were the Chair of IARU Region 1's Spectrum and Regulatory Liaison Committee and the Secretary-General of EURAO.

The meeting was held against a background of both IARU Region 1 and EURAO having LoUs with CEPT, enabling participation in the work of CEPT.

The meeting was held to explore areas of common interest, recognising in particular the desire of CEPT for representative organisations to present a common amateur radio service position.

IARU Region 1 and EURAO exchanged views on their priorities for the Amateur Radio service after which a more detailed discussion took place on the ways in which they might cooperate in the interest of the future of amateur radio.

Both organisations accepted that they had shared objectives, identified some specific areas for interworking and will continue a constructive dialogue into the future.
